Course Notes

The annual advanced tarot course includes notes and handouts. This course is less theory and more hands-on practice than the introductory course, and it includes regular demonstrations, games, role play and practice sessions. The supervised practice sessions increase your confidence and strengthen your skills through direct experience with tarot reading. Bring some questions to ask the cards.

An advanced tarot log is included, along with handouts on new tarot layouts including the Karma reading, the Spiritual Direction layout and the Five Alternatives spread. You'll also have the chance to design your own tarot layout.

Please bring your copy of *The Tarot Revealed* for reference, and a tarot deck for practice.

You will also have the opportunity to watch and participate in two telephone readings which will be given to a stranger on a speaker-phone. This will demonstrate the telephone reading process for students who decide on a career in telephone readings.
